

Key Changes to the Austroads Guide to Road Safety

Part 1 Introduction & The Safe System

The Austroads Guide to Road Safety Part 1: Introduction & The Safe System is a **new** part in the Guide to Road Safety series. Like the old Part 1, it contains an overview of road safety, but further enhances the Safe System approach as the best practice road safety philosophy.

Updated Content

Old AGRS Parts

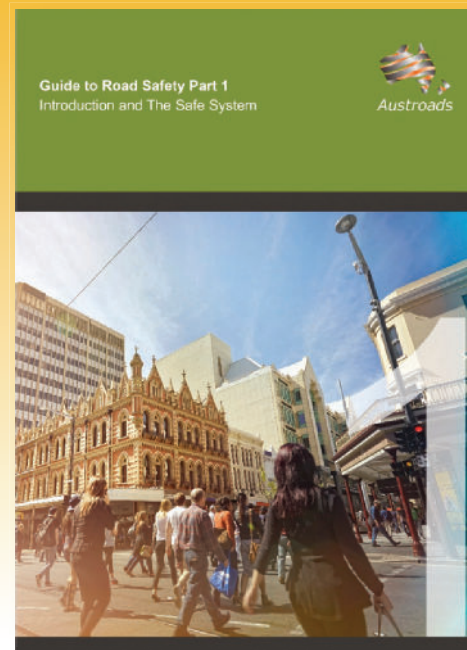

New Content

Austroads research reports and publications

National Road Safety Strategy

In this new Part of the AGRS, you will find:

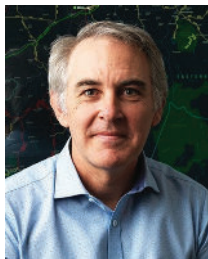

- ▶ Information about how the **new AGRS series** can be used, and where information can be found throughout the seven parts
- ▶ A concise summary of the **Safe System approach** to road safety
- ▶ Clarification of the **role, responsibilities and legal liability** of transport and road agencies with respect to road safety
- ▶ A presentation of common methods for **measuring road safety performance**
