

Key Changes to the Austroads Guide to Road Safety

Part 3

Safe Speeds

The Austroads Guide to Road Safety Part 3: Safe Speeds is a **new** part in the Guide to Road Safety series.

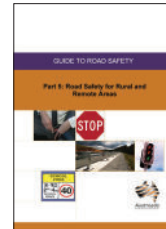

It aligns with the Safe Speeds element of the Safe System.

Updated Content

Old AGRS Parts

Part 3

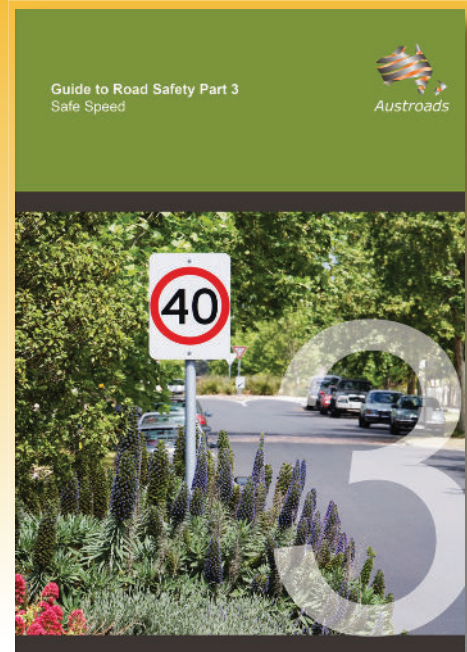

Part 5

New Content

Austrroads research reports and publications

In this new Part of the AGRS, you will find:

- ▶ **New!** Latest research on speed and harm, now including serious injury as well as fatalities
- ▶ **New!** Information on why people speed and why some do not see it as an issue
- ▶ **New!** An extensive list of studies demonstrating the amount of casualty reduction that can be achieved with safer speeds
- ▶ **New!** Commentary on travel time and productivity
- ▶ **New!** Ways to manage speed, including infrastructure and non-infrastructure techniques
