Participants have enjoyed sharing their achievement on social media by posting our Safe Cycling Infrastructure program completion badges.

"The course was spot-on! Those 360 videos were a genius move. It's like being on-site without leaving the desk. And the rider's view? Nailed it! Almost better than the real thing."

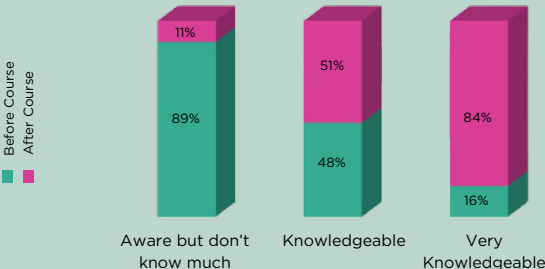

"Great collection of photos and real world examples of awesome cyclist infrastructure, do's, don'ts and everything in between."

"An insightful and fun learning experience, covering the ins and outs of safe cycling infrastructure design."

Over 564 questions have been answered during the live webinars!
