TOUR DE MELBOURNE - THE RACE TO IMPROVE CYCLIST SAFETY

This novel auditor training will provide participants the opportunity to experience **first-hand** how infrastructure impacts cyclists.

Attendees will be provided a bicycle or e-bike (or they may bring their own) and will be guided on a cycling tour that highlights a variety of cycling treatments both on and off-road. This hands-on approach will give attendees insight into how this vulnerable road user **experiences the metropolitan network** and the **hazards they face.** Moreover, being actively involved in the training course will **sharpen attendee's skills in identifying hazards and providing solutions for cycling infrastructure.**

Stops will be made along the journey for the group to pause and reflect on the ride. **Experienced facilitators** will provide insight and communicate what is **'best practice' for delivering cycling infrastructure.** Participants will be encouraged to share their own experiences of the ride whilst developing their understanding of what treatments are available.

TRAINERS

Phil Gray
– Vulnerable Road User Program Coordinator, Regional Roads Victoria

Kenn Beer
– Principal Engineer, Safe System Solutions Pty Ltd

Hugo Nicholls
- Co-Founder, The Pedal Project, Transport Consultant, Arup & Research Officer, Monash University

KEY OUTCOMES

Strengthen auditor's ability to reliably and effectively:

· Appraise whether infrastructure used by cyclists is safe
· Identify specific features of infrastructure which raise safety risk for cyclists
· Communicate audit findings
· Understand the role of auditing in the Safe System approach to cyclist safety
· Gain personal user experience of the safety risks faced by cyclists

WHO SHOULD ATTEND?

· Traffic engineer practitioners
· Existing certified auditors wanting to refresh and extend capabilities in the growing risk area of cyclist safety
· Newly accrediting auditors wanting a thorough coverage of mode specific safety
· Managers wishing to enhance capabilities in cyclist safety
· Road safety practitioners

NOTES

· Route map is included
· If severe weather is forecasted, the course will be postponed
· Maximum 12 participants per course

COST (PER PERSON, GST INCLUSIVE)

Cycling Auditor Training Course $1290
(includes morning tea, lunch & afternoon tea, bike & helmet hire, insurance)

3:00 PM	**Afternoon Tea, presentations and wrap up** Phil Gray - Innovative cycling treatments in Melbourne Wrap up discussion
4:00 PM	**End Event**

TESTIMONIALS:

"A brilliant training course to help improve the understanding of cyclists infrastructure and behaviour. I recommend anyone and everyone involved with cycling to attend."

"Easy for beginners, insights for the experienced."

"Great training! It really gave us a better perspective of the challenges cyclists are experiencing everyday."
