

SAFE SYSTEM ASSESSMENTS TRAINING

STARTS 26 MAY 2021

Safe System Assessments are the **best-practice method** to **ensure safe roads** because they check that Safe System principles are embedded in road infrastructure projects. Safe System Assessments are mandatory processes for large projects in **Victoria, South Australia, Queensland and New Zealand**, and are being used by **Transport for NSW** in the planning phase of major road projects.

This course provides participants with the key **skills and tools** to undertake a Safe System Assessment in accordance with the **Austroads Safe System Assessment Framework**. It also covers the content of the Victorian and South Australian Guidelines, the Qld DTMR Road Safety Policy and the established process in New Zealand and New South Wales.

NATIONAL ROAD SAFETY STRATEGY

The **Inquiry into the National Road Safety Strategy** states that the : “[The Safe System Assessment Framework] **needs to be used on all road infrastructure projects at all levels of government** and within the private sector.” While road safety audits can pick up specific design deficiencies, Safe System Assessments are still required to **ensure that a harm elimination agenda is being pursued**.

The inquiry recommended that a “Key Action: All Commonwealth infrastructure funding to include star rating and safety performance criteria with Safe System Assessments to be used at the planning and completion stages on all projects.” (p.65)

WHO SHOULD PARTICIPATE?

- State and Local government personnel
- Engineers, planners, designers, traffic managers
- Consultants involved in road safety auditing
- Road safety practitioners
- Road Safety Auditors that want to meet the requirements of the new Austroads Guide to Road Safety Part 6 and 6A

THIS INTERACTIVE PROGRAM GIVES YOU:

- Learning from **home**, maintain your physical distance from others & learn how to complete a Safe System Assessment
- Complete the **field exercise near your home** - tell us where you live or want to be and we tailor a site location near you
- **Video call** support while you complete your assessment
- Phone & email support throughout the program
- Supportive peer learning group via chat functionality
- **Engaging** content including live modules, quizzes, games and prizes to keep you motivated
- **Education pack** delivered to your door, includes design plans, exercises and a report template

SUCCESSFUL COMPLETION

In order to successfully complete this program and gain your certificate to become a Safe System Assessor you must:

- Attend a minimum of 4 out of 5 live webinars (all webinars are recorded and available to review), and view any not attended.
- Satisfactory completion of all set tasks - including quizzes, exercises/assignments, site visit & Safe System Assessment report.
- Achieve an average 80% pass mark on all quizzes (up to three attempts with one-on-one coaching available if required)

TIME COMMITMENT (OVER 3 WEEKS)

Live Webinar participation -	10 hours
Assignment work -	30 minutes
Quiz questions -	40 minutes
Individual mock Safe System Assessment (site visit, travel & report writing)	3 - 5 hours
Total (CPD Hours)	14 - 16 hours

COST (PER PERSON, GST EXCLUSIVE)

Safe System Assessments \$1600
