PROJECT

Development of the Investment Plan and Program Guidelines for the TAC \$70 million Cyclist Safety Program

Safe System Solutions Pty Ltd was engaged by the Victorian Government (Department of Transport) to develop the Investment Plan and Program Guidelines for the Transport Accident Commission's \$70M investment in cycling safety.

The project involved developing a framework for the investment, an overarching business case, an economic evaluation of the benefit (safety only) of the investment and detailed program guidelines for the VicRoads/DoT regions to use to develop candidate projects on Strategic Cycling Corridors for the program.

Project: TAC \$70M Cycling Safety Program – Investment Plan & Program

Guidelines

Client: Department of Transport

Year: 2017-18

Key Staff: Kenn Beer
