## Indonesian Delegation Road Safety Engineering Study Tour

Safe System Solutions Pty Ltd was engaged by the Indonesian Government to develop, design and host a road safety study tour for a delegation of 30 engineers and road safety technical professionals.

The focus of the two-week study tour was Road Safety Audit, Black Spot investigation, road safety infrastructure management and roadside safety. Safe System Solutions Pty Ltd coordinated logistics, presenters, transport, site visits, industry tours and presented much of the technical content alongside experts from other organisations including VicRoads, Department of Transport and Transurban.
