Japan Road Safety Program

Safe System Solutions Pty Ltd and VicRoads were engaged by Express Highway Research Foundation of Japan to deliver a two-day Victorian Road Study Tour in Melbourne during November 2019.

The content was developed in consultation with Express Highway Research Foundation of Japan to ensure that it was tailored to the specific needs of the attendees.

On completion of the tour, each attendee was issued certification that verified that they had attended the tour. The tour was hosted by Kenn Beer and Kathy Doukouris, VicRoads representatives, and other experts in road safety and traffic management.
