Road Safety Audit course (Social) Distance Education (online)

Safe System Solutions Pty Ltd developed an interactive online version of their Road Safety Audit course. The course covers the new Austroads Guide to Road Safety Part 6 & 6A. Upon successful completion of this training, participants will be eligible to register as a Road Safety Auditor in Victoria, Queensland, South Australia and internationally.

This is a world first road safety audit course, and consists of field exercises near the participant's home, one-on-one video support, a world class Learning Management System, phone & email support throughout the program, a supportive peer learning group via chat functionality, engaging content including live modules, quizzes, games and prizes and education packs delivered to participants' door.
