Road Safety Training Philippines Department of Public Works and Highways (DPWH)

Safe System Solutions Pty Ltd was engaged by the DPWH (via VicRoads International) to run five training courses over seven weeks in Manila on the topic of Road Safety Engineering, roadside safety, road safety auditing, motorcycle safety, pedestrian and cyclist safety infrastructure.

Safe System Solutions Pty Ltd and other consultants designed the course content, identified and developed exercises, field trips and learning assignments. The content was presented by Kenn Beer, Principal Engineer at Safe System Solutions Pty Ltd and other road safety experts from Australia.
