PROJECT

Road Trauma – Data Analysis

City of Warrnambool
Road Trauma Analysis 2012-2016

safesystemsolutions.com.au
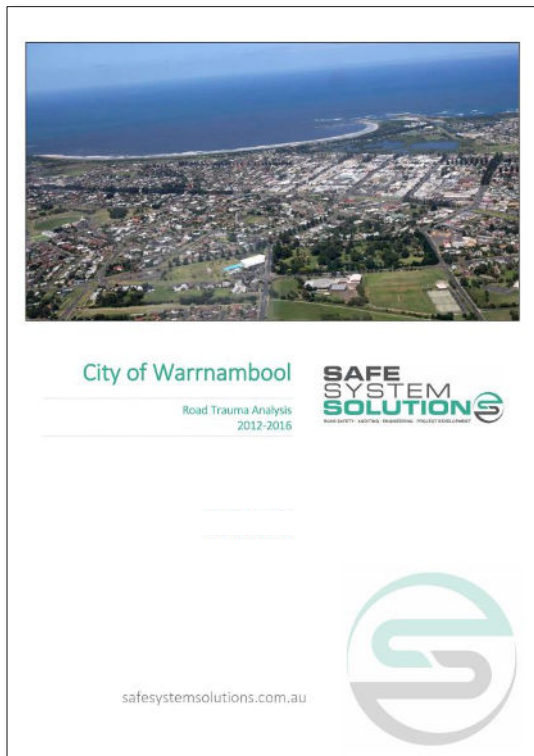

Safe System Solutions Pty Ltd was engaged to review and analyse road crash data within the Warrnambool City Council so as to provide a better understanding of crash trends including total crashes, types of crashes, vehicle types, locations and road user characteristics.

The crash data analysis report was based upon the VicRoads Crash Stats Database, providing the Warrnambool City Council with current statistics and information that are up to date and will enable targeted road safety actions.

Project: Road Trauma – Data Analysis

Client: Warrnambool City Council

Year: 2017
