## SAG2090 Best Practice Road Safety Infrastructure Program Development

Click here to view the report

Safe System Solutions Pty Ltd was engaged by Austroads to prepare guidance and advice on best practice in road infrastructure programs. This project provides best practice recommendations for future Road Safety Infrastructure Program development that aligns with the Safe System approach, with a focus on reducing fatal and serious casualties. In partnership with Abley Consultants, Safe System Solutions Pty Ltd provided specialist advice on road safety infrastructure programs. Safe System Solutions Pty Ltd also provided stakeholder consultation and engagement for this project.
