## Safe System Assessment Suburban Rail Loop Precincts

Click here to view  
the EES

Safe System Solutions Pty Ltd (SSS) was engaged by AJM Joint Venture (Aurecon, Jacobs and Mott MacDonald) to undertake Safe System Assessments for the Suburban Rail Loop East precincts (six in total).

The assessment included; reviewing background information and precinct designs, inspecting the site, reviewing traffic modelling, workshops with the project team and providing design recommendations to improve the road safety performance of the precincts. The assessment formed part of the project's "Environmental Effects Statement" as a Technical Appendix.

**Project:** Suburban Rail Loop Precincts – Safe System Assessment

**Client:** AJM Joint Venture
