

SAFE SYSTEM ASSESSMENTS

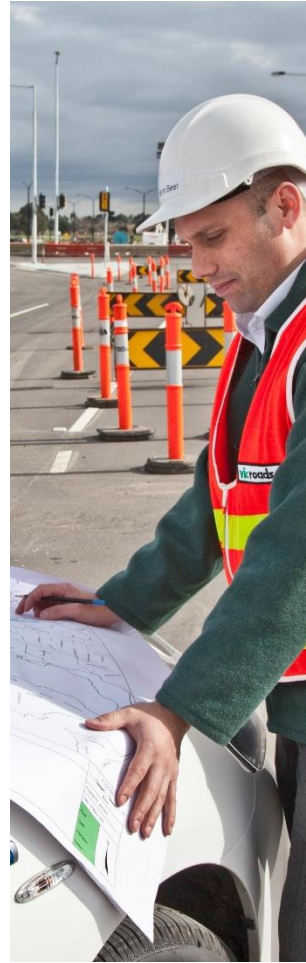

Safe System Solutions Pty Ltd:

- ➔ Is Australia's most experienced Safe System Assessment consultancy.
- ➔ Completed Victoria's first Safe System Assessment in 2013.
- ➔ Has undertaken over 250 Safe System Assessments for major infrastructure projects.
- ➔ Completed Australia's largest Safe System Assessment (North East Link).
- ➔ Are official training providers for Safe System Assessments in Victoria, Tasmania, South Australia, Queensland, NSW, the Northern Territory and New Zealand.
- ➔ Were on the Working Group for the development of AP-R509-16 the Austroads Safe System Assessment Framework.

Austrroads relies on our advice on the implementation of the Safe System. Key current and past Austrroads projects:

- ➔ SS2035 Safe System Infrastructure on Mixed Use Arterials.
- ➔ NTM6021 Safe System in Austrroads Guide to Traffic Management.
- ➔ SSP6038 Key Interventions to Reduce Road Trauma and Forecasting Potential Road Safety Gains.
- ➔ SAG2060 Guide to Road Safety Part 6 Road Safety Audit.
- ➔ SAG2090 Best Practice in Road Safety Infrastructure Program.
- ➔ NTM9806 Guide to Temporary Traffic Management.

Our Safe System Assessments are used as the best practice example for Safe System Assessments across Australia and New Zealand
