Tamil Nadu Delegation Road Safety Study Tour

Safe System Solutions Pty Ltd was engaged by the government of Tamil Nadu, India, to develop, design and host a road safety study tour.

The content was developed in consultation with the government of Tamil Nadu and covered road safety strategy, engineering, medical response, road safety management, technical design and road policing.

Safe System Solutions Pty Ltd coordinated logistics, presenters, transport, site visits, industry tours and presented much of the technical content alongside experts from other organisations including Victoria Police, VicRoads, Department of Transport, Transurban, the Alfred Hospital Trauma Institute and Department of Health and Human Services.
