Thailand's Department of Rural Roads (DRR) Road Safety Audit - Study Immersion

Australian Government

Success Story Article

Safe System Solutions Pty Ltd was engaged by Thailand's Department of Rural Roads on five occasions to organise, design and deliver specialist road safety audit, crash investigation and road design courses. These have been run in Australia and Thailand. The 2018 Road Safety Audit – Study Immersion tour involved in-depth training and practical learning in world's best road safety audit practices. It included in-field work and classroom learning with Australia's leading road safety auditors, road designers and road safety engineers from Safe System Solutions Pty Ltd and the Victorian Government.
