

PROJECT

Wombat/Pedestrian Crossing Design

Safe System Solutions Pty Ltd were engaged by Regional Road Victoria/VicRoads/DoT to design a wombat crossing and speed limit reduction on High Street, Yackandandah.

The design was prepared in accordance with VicRoads Final Drawing Presentation Guidelines, VicRoads Road Design Note 03-07 – Raised Safety Platforms and relevant Australian Standards.

The design included:

Site inspection, to assess the site conditions and constraints; design of a wombat crossing; swept path analysis; design of signage to implement a 40 km/h speed zone; liaison with stakeholders; preparation of drawings.

Project: Wombat/Pedestrian Crossing Design, Yackandandah

Client: Regional Roads Victoria / VicRoads / Department of Transport (Vic)

Year: July 2021 – Aug 2021
